LaneQuest

CONNECTING CARS, PEOPLE AND MEMORIES

Web + iOS + Android

A private home for your car club

Give members one place to share vehicles, memories, and showcases — under your club's name, colours, website and app.

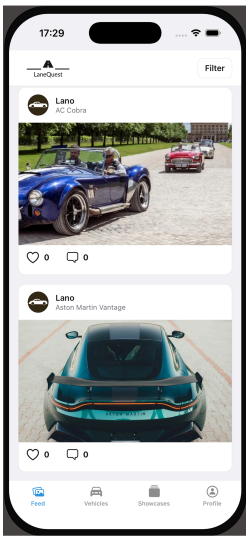

The challenge for clubs

Most clubs already have the memories — they just live in too many places. Photos are scattered across chats and drives.

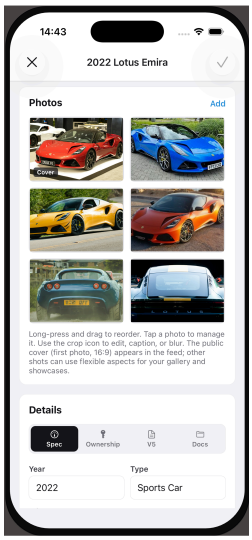

Rallies, restorations, and meet-ups get lost in group messages and personal albums. New members never see the history.

With LaneQuest you get a dedicated private website and apps accessible only by your members where they can record their vehicle details and share photos and stories.

What members see

Your club's private home
Invite-only space with your name, logo, and colours.

Vehicles, photos & stories
Members record cars and keep rally and restore memories together.

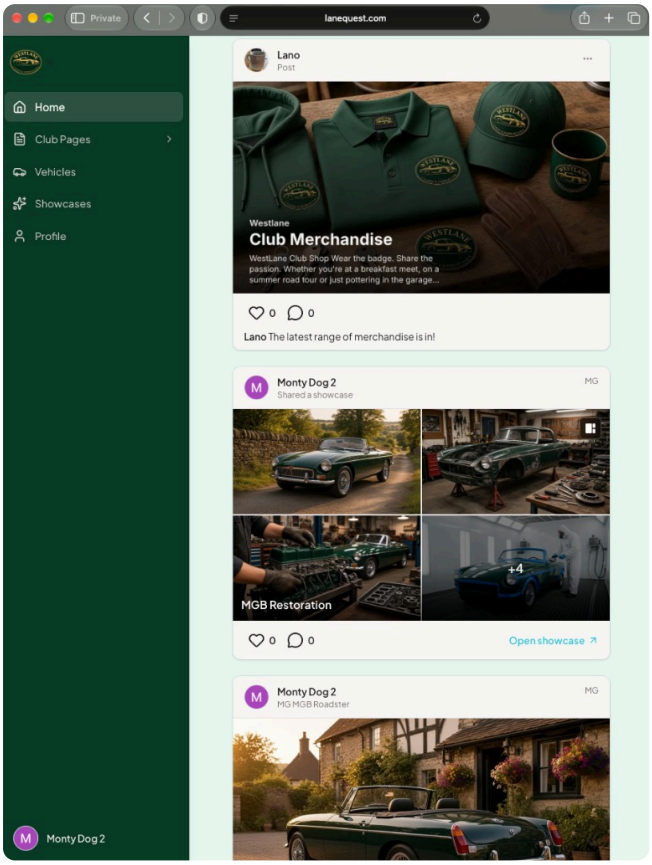

Branded showcases
Members can share showcases publicly carrying the club's name and logo.

Pricing: On application · lanequest.com/clubs

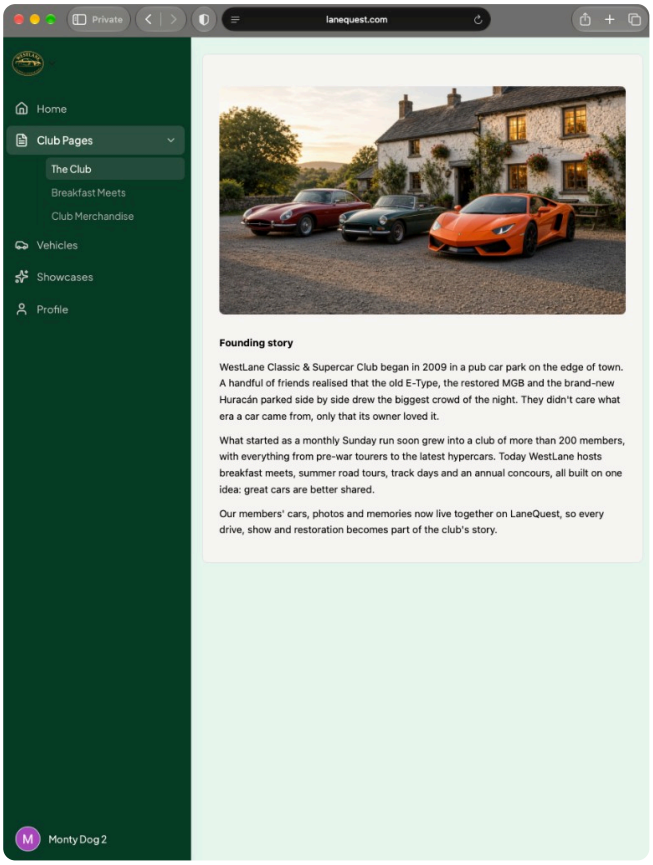

LANEQUEST CLUBS

What members see

The same private club on the web — the feed and club pages members open in the browser.

The club feed on the web
Member posts, club posts and shared showcases in the browser, in the club's colours.

Dedicated club pages
Founding stories, events, and club information members open inside the club.

LANEQUEST CLUBS

What your club gets

Private, invite-only community
Members join through invite links. You control who is in, and roles stay with your committee.

Your branding and club URL
Logo, colours, and a dedicated club address so the experience feels like yours from the first visit.

Dedicated club web pages
Publish pages for news, events, or club information that members can open inside the club space.

Bulk member invites
Onboard a whole membership list with invite links and an Excel bulk-invite flow for larger clubs.

Moderation tools
Review photos and comments, manage roles, and keep the community appropriate for your members.

Branded showcases
Members curate shareable showcases that carry your club's name and logo when they go public.

How it works

STEP 1
Set up your club
We provision your club with branding, seat capacity, and a Club Pro or Club Elite plan for every member.

STEP 2
Invite members
Send invite links one by one or in bulk. Members join the private community — no open signup.

STEP 3
Members build and share
Each member adds vehicles, photos, and showcases under your club's look and entitlements.

Member plans

The club chooses one plan for all members. The club pays; members do not see personal upgrade prompts inside the club.

Included	Club Pro	Club Elite
Vehicles	10 vehicles	20 vehicles
Showcases	10 showcases	50 showcases
Photos	200 photos	1,000 photos
Storage	5 GB storage	25 GB storage

Seat capacity is set with you — active memberships use seats against your agreed limit.

For your committee

- Seat-based licensing sized to your membership
- Moderation for photos and comments
- Dedicated club pages for members
- Invite-only privacy for your community
- Branded public showcases that look like the club

Ready to talk?

Tell us about your club size and what you need. We'll propose seats, a member plan, and a setup path that fits your committee.
